## A COMPLETE ENZYMATIC DETERGENT

The protease and amylase enzymes act in synergy against the most difficult protein and starch stains. Additional surfactants work to remove fatty/oil stains

**The result is an active detergent that combats all kinds of stains.**

### PROTEASE

These enzymes remove protein stains. Active on:

Blood, chocolate, sauces, food stains, eggs, milk, ice-cream, etc..

### AMYLASE

These enzymes remove starch stain. Active on:

Rice, baby food, grass, chocolate, potatoes, etc..

### SURFACTANTS

They dissolve and remove fatty stains. Active on:

Oil, food fat, soil, oil engine, tar, wax, etc..
