

# SFELTRIX

## PRODUCT DESCRIPTION:

**Silk protein based additive which protects wool garments and prevents wool felting.**

- It contains silk proteins that nourish wool fibres
- It creates a protective layer on garments fibres
- It gives a soft and incomparable touch
- It can restore 1 – 2 lost sizes due to wool felting
- Used daily it avoids possible wool felting

## DIRECTION FOR USE:

Hygienfresh® Sfeltrix is used during the last rinse with a limited water level. It can be used also to soak to recover lost sizes.

**In the last rinse (replacing the softener):** 6-10 ml of Hygienfresh® Sfeltrix per Kg of dry garments, avoiding excessively centrifugating or drying.

**As an additive to the softener:** 3 – 5 ml of Hygienfresh® Sfeltrix per Kg of dry garments, avoiding excessively centrifugating or drying.

**To soak:** In a basin with warm water add 5-10 ml of Hygienfresh® Sfeltrix per every litre of water and leave to soak for ~30 min. Every 5 min stretch garment fibres.
