

BIOCOLOR

PRODUCT DESCRIPTION:

Fixing and colour-fastening agent

- Prevents colour transfer during wash cycle
- Inhibits the readsorption of unfixed colour in the wash substance
- Repair the damages caused by colour transfer (if unfixed)

DIRECTIONS FOR USE:

Dose 2-4 ml of Biocolor per Kg of dry garments during the main wash, regardless of water hardness and wash temperature. In case of washes with new garments double the dose or add Secur Color sheets. In order to remedy to colour transfer, add 30ml of Biocolor along with 5ml of a mild detergent per litre of warm water. Leave the garment soak for 30-60 min. and move the garment with your hand every 5/10 minutes. Wash again the garment as usual.
